Re: United States Patent for *Methods and Apparatus for Image Capture and Decoding in a Centralized Processing Unit*
Application No. 09/932,148; Filed August 17, 2001
Patent No. 6,947,612; Issued September 20, 2005
Our File 033257/207652

Dear Mr. Fries:

In our file review for the above-referenced patent, we note that there is a possible error in the calculation of the patent term adjustment. Please note that the drawings were received by the Patent Office on May 25, 2005, as noted in the Image File Wrapper section of PAIR. However, in the Patent Term Adjustment screen, the drawings are being shown as received August 12, 2005.

Applicant is submitting this letter to meet any responsibility we may have to bring this difference in calculation to the attention of the United States Patent and Trademark Office.

Respectfully submitted,

Christopher J. Gegg
Registration No. 50,857
